REVIEW FY 2023/2024 BUDGET: Mayor and Council reviewed the budget for the Water, Sewer, and Electric Departments.

Two big projects are scheduled for water and sewer that is fully funded with the Pot C Money of the ARPA Funds. Will still need to get a hold of Rural Water and see if they can help with deciding what the rate for water should be. The current flat bed ford is dead and so discussion was held on how to finance a new vehicle. Public Works will get a hold of DNRC/RD regarding a grant that may help with purchasing the new vehicle.

Electric Department would like to get a start on hiring a new lineman or apprentice lineman. Discussion held.

Will need to meet again in August due to the valuations are not in to determine what the budget will be for General Fund.

Motion to adjourn at 7:00 pm was made by TJ Boswell, second by Jamie Shupe.
Motion Carried.

Charles Ekstedt, Mayor
